MEMORANDUM FOR: United States Intelligence Board

SUBJECT: COMOR Report on High-Altitude Photographic  
Coverage of Cuba, 31 October - 27 November 1966

REFERENCE: USIB-D-41. 14/205, (COMOR-D-24/178)  
27 November 1964, Limited Distribution

1. The results achieved in response to USIB requirements for GLASS LAMP coverage of Cuba (see reference) are reported for the 31 October-27 November period as follows:

a. About 90 percent coverage of the territory of Cuba with interpretable photography at least once every four weeks.

Cumulative area coverage for the 28-day period amounted to 92 percent. The areas not covered (see map attached) are not judged to require special coverage.

b. Unless time of year, weather, or other operational factors preclude such planning, missions should be flown on a random basis and spread over the four-week period rather than being concentrated.

Eight missions were flown during the period as follows: [REDACTED]

[REDACTED] The overall Cuban coverage requirement is under review, and COMOR expects to receive the DOD recommendations from the DIA in the near future.

c. Coverage of specific targets in response to a need as determined by COMOR or higher authority for confirmation or denial of information received from other sources.

No special coverage was requested.

2. In its readout NPIC pays particular attention to any activity which might indicate an attempt to reintroduce or deploy offensive weapons systems. No such activity has been observed during this period.

3. Conclusion: The USIB requirement for high-altitude reconnaissance of Cuba was satisfied for the period 31 October - 27 November.

4. Recommendation: That the Board note this report.
